

# Alfalfa

## ORIGIN

Italy (Emilia Romagna)

## COMPOSITION

100% Medicago Sativa

Alfalfa is characterized by its high content of organic calcium, beta-carotene, choline, vitamin E, fatty acids and Omega 3.

**Rich in beneficial properties**, alfalfa is much more than just forage: it is **a complete functional food**, capable of supporting the wellbeing and improving the health of the animals that consume it every day.

# Rye Grass

## ORIGIN

Italy (Emilia Romagna)

## COMPOSITION

Grasses and legumes

Mixed hay is a natural and sustainable choice, the result of the spontaneous evolution of grasses grown without the use of herbicides.

**Rich in legumes and grasses** in varying proportions, it offers a unique mix of botanical essences that guarantees high nutritional quality.

Thanks to its **balanced composition**, it is an ideal and extremely versatile solution for healthy, natural and complete livestock nutrition.

# Straw

## ORIGIN

Italy (Emilia Romagna)

## COMPOSITION

100% Cereal straw

Our straws, produced from selected alfalfa and ryegrass crops or cereals such as wheat, barley and spelt, are designed to offer maximum functionality in farming.

Thanks to their natural **richness in fibre**, they make an **excellent food supplement**. At the same time, straw's **remarkable absorbency** makes it the perfect bedding material, helping to ensure your animals' **hygiene**, comfort and wellbeing.
